AUSTRALIA'S CHANGING DAIRY INDUSTRY

Production, domestic demand & overseas market

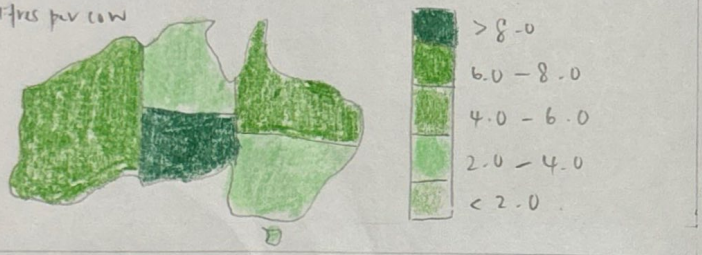

① ALL INDUSTRY TRANSFORMED. Fewer farms now support more milk through larger herds and higher output.

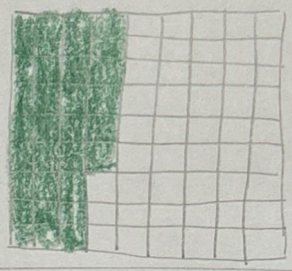

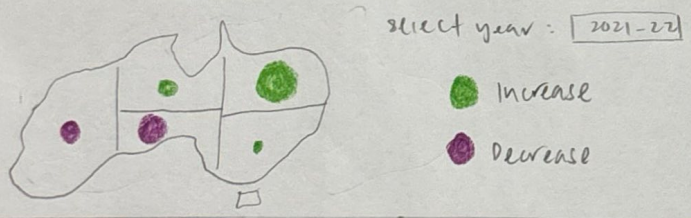

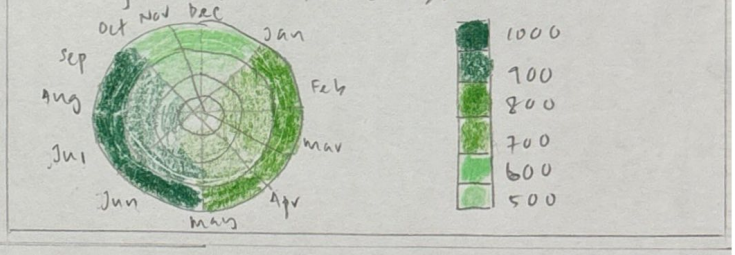

② GEOGRAPHY & SEASONS. High output per cow does not always mean larger milk industry.

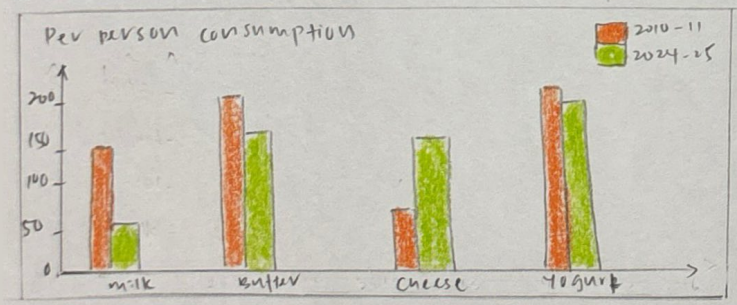

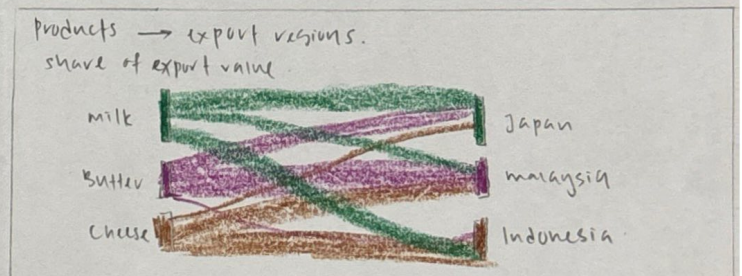

36.5% of Australia's milk produced in Victoria

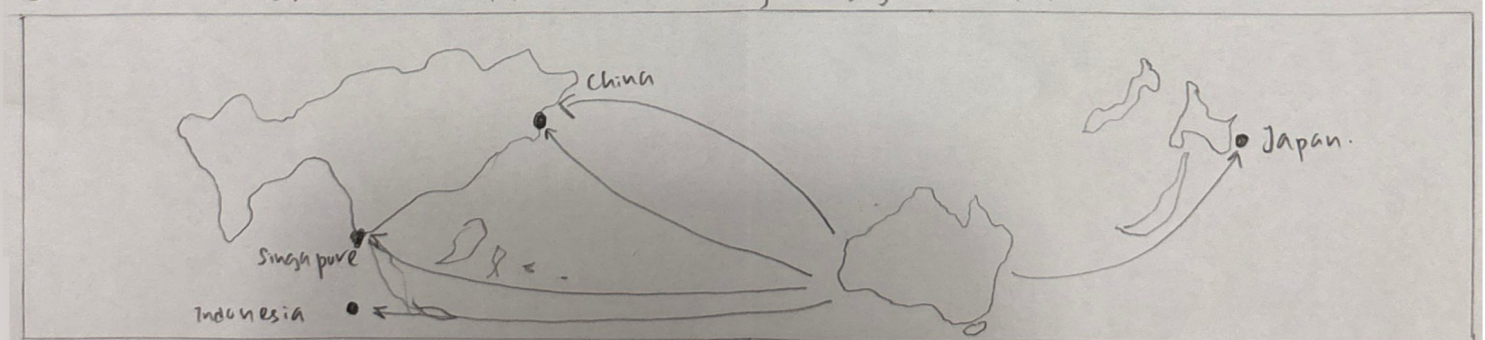

③ CHANGING DEMAND. Domestic consumption and export sales reveal different side of demand.

④ GLOBAL MARKETS. More tonnes do no necessarily bring greater export value.

FEWER FARMS. LARGER HERDS. DIFFERENT MARKETS.
